## Education

---

**Manipal University Jaipur**

*Bachelor of Computer Applications*

**December 2021 - December 2024**

*Jaipur, Rajasthan*

**Shree Halari Visa Oswal Vidyalaya and JR. College**

*Higher Secondary Education*

**June 2020 - August 2021**

*Bhiwandi, Maharashtra*

## Experience

---

**Pep Softwares Private Limited**

*Front End Web Developer Intern*

**July 2023 - September 2023**

*Tamil Nadu, India*

- I played a key role in enhancing the user experience of a multi-faceted web application, with a specific focus on the religious prayers section.
- Crafted crisp and visually appealing designs, enhancing the overall aesthetic and usability of the application.
- Ensured seamless access to religious content, fostering a spiritually enriching experience for users.
- Leveraged **HTML**, **CSS**, **JavaScript** and **Bootstrap** to significantly improve section's responsiveness across diverse devices, ensuring a consistent and user-friendly interface.

## Projects

---

**Weather Web App** | *HTML, CSS, JavaScript*

**September 2024**

- The App provides real-time weather information for any city or country using **Weather API**.
- It features a user-friendly search functionality, allowing you to quickly check weather in various cities across the globe.
- It displays key data such as Min, Max Temperature, City Name, Country Code, Humidity, Wind, Speed and Pressure
- Live Link: <https://heetgudhka2003.github.io/Weather-App/>

**Joke Generator App** | *HTML, CSS, JavaScript*

**September 2024**

- The app provides some light-hearted entertainment by generating a random dad joke every time the button is clicked.
- It fetches jokes from the **Dad's Joke API** and displays them on the screen for fun and amusement.
- Live Link: <https://heetgudhka2003.github.io/Joke-Generator/>

**Background Color Generator** | *HTML, CSS, JavaScript*

**September 2024**

- The app includes two buttons for generating new background colors. It displays the generated RGB color code.
- A **copy to clipboard** feature for easy use of the RGB color code.
- Live Link: <https://heetgudhka2003.github.io/Background-Color-Generator/>

## Technical Skills

---

**Languages** HTML, CSS, JavaScript

**Developer Tools:** VS Code, Eclipse, GitHub

**Technologies/Frameworks:** Bootstrap
